The Only

Great and thoroughly reliable building-up medicine, nerve tonic, vitalizer and

Blood Purifier

Before the people today, and which stands preeminently above all other medicines, is

HOOD'S Sarsaparilla

It has won its hold upon the hearts of the people by its own absolute intrinsic merit. It is not what we say, but what Hood's Sarsaparilla does that tells the story:—

Hood's Cures

Even when all other preparations and prescriptions fail.

"As a blood purifier we cannot find the equal of Hood's Sarsaparilla. When any of our family complain of headache or tired feeling we get Hood's Sarsaparilla, and in a short time we are in good health." RUTH R. MATTHEW, 250 Short St., Aurora, Illinois.

THE CITY COUNCIL

City Officers' Salaries Are Horribly Slaughtered.

HOMER'S PRIVATE SNAP.

The Salons Want Enlightenment on It—Anxious to Know How Much There is in It—Factory Race to be Bridged and Otherwise Improved.

Petition for remittance of taxes, were received by the city council last night from Charles Hardy, Samuelson estate, Mary A. Boshard and Robert Till. First and last were referred; \$7.00 was remitted from Samuelson tax and Mary Boshard's whole tax, \$5.04 was abated. Mr. Till asked for release of tax sale made last year, as well as for remittance.

The committee on streets and alleys reported in the matter of bridging and putting in screens in factory race recommending that a screen be put in head of flume on Second street; that the P. L. M. & B. be required to make sidewalk on south side where it crosses waste waterway, passable; that E. J. Ward & Sons be required to improve wagon bridge on Third street and put a foot bridge over tail race on north side of Third; that a foot bridge be placed on south side of Twelfth street by the Excelsior Roller Mills company, and further that all openings on cross streets be protected with fences or bridges so as to cover the whole width of each street by the companies owning the different grants.

The same committee recommended that the Woolen mills be requested to cover the mill race on Seventh street with bridge to connect with foot bridge on south side of street; also that the foot bridge on Ninth street be moved to north side and wagon bridge constructed; also grading and improving H street along which race runs in different places. Adopted.

Finance committee reported on reports of city officers presented at last session, having found all correct except that of Eph. Homer, he having got receipts from water in cemetery mixed with receipts from general system. Referred back to Mr. Homer for correction. Reported having found Alfred's receipts issued as delinquents reported, totaling \$2,847.45 and tax assessed only \$2,119.51. The watermaster was credited with \$27.95 the difference and charged with \$32.05 added to the schedule since footings were made.

The committee on judiciary reported adversely on the mayor's recommendation to move water pipe line in cemetery, favorably on reducing water rates to \$2.75 for full lots; \$1.75 for half lots and \$1.25 for quarter lots; and on the recommendation to combine certain city offices and reduce salaries, presented a bill for an ordinance. This bill reduces recorder's salary from \$500.00 per annum to \$450.00; treasurer from \$150.00 to \$125.00; marshals from \$80.00 to \$60.00; watermaster supervisor from \$70.00 to \$60.00; superintendent of waterworks from \$70.00 to \$60.00 and to his work is added the duty of assessor and collector of water rates. The policeman's salary is fixed from \$30.00 to \$40.00 per month, the sexton's from \$45.00 to \$40.00 and deputies are reduced from \$1.75 per day to \$1.50. Adopted and bill passed.

At this stage of proceedings, all unexpected, Superintendent of Waterworks Homer came in for a rough jacking up. It is known that Mr. Homer buys pipe and sells it to water consumers; no bills for that pipe ever comes into the council and it is known that he has a private supply of pipe in this, and they ordered him to furnish the council with a full and complete report on the matter.

The matter of moving poles from center of streets again came up. An order directing their removal is a matter of record. It has never been obeyed. The Judiciary committee will try to have it obeyed.

The recorder's schedule of special tax for graveling districts was approved and adopted and necessary notices ordered published.

Bills amounting to \$107.67 were allowed.

OLD BELLS IN NEW YORK.

Two Metal Messengers Whose Tones Have Sounded to Many Generations.

Whether it be due to patriotic or poetic instincts it is nevertheless true that a famous old bell always arouses a reminiscent feeling. Its very presence suggests a story—the glad cry of liberty, the joyous peals of wedding festivities, the somber tones of funeral processions. Weather stained and hoary, an old bell seems like a messenger of fate.

Hence it is not to be wondered at that the bell in the yard of the Collegiate church, at Fifth avenue and Twenty-ninth street, daily attracts a throng of inquiring faces, closely pressed against the high iron railing surrounding the church.

From the quaint Latin inscription on the bell one learns that it was sent in 1795 by the people of Amsterdam as a gift offering to the North church in New York, then at Fulton and William streets, where it had been erected in 1638.

Hanging high above the city, at Forty-eighth street and Fifth avenue, is another link that binds us to the past. This great bell bears this Dutch inscription:

"Een leegte aan de Neederlandsche Kerk, Nieuw York, 1731."

It appears from the old will of Colonel Abraham de Peyster that he ordered a bell to be made in Holland for the Middle church, then occupying the site of the old fort at the Battery. The people of Holland were so pleased at being thus remembered by one of their number in America that a great number of coins were thrown into the melting pot which contained the metal for the bell as an evidence of their appreciation. During the Revolution the Middle church was put to strange uses. Re-moving the pulpit, gallery, pews and flooring, the British dragons converted it into a riding academy.

John Outhout was granted permission from Commander in Chief Lord Howe to remove the De Peyster bell to a place of safety. Accordingly, in the most unobtrusive manner possible, the bell was sent to Chambersburg, Pa.

When peace was restored, the bell was hung in the steeple of the Middle church, afterward leased to the federal government for postoffice purposes, and which many remember as the old Post-office building. A little more journeying and the De Peyster bell reached its present haven.

The Collegiate conservatory carefully preserve the relics of their several churches. A silver plate bearing the date 1769 and giving a history of the old North church is stored away with a charter granted in 1699 by William III empowering them to incorporate themselves in New York. Here, too, is zealously guarded the old will of John Harpending, now yellow with age, bequeathing, in 1733, much of his land to the Collegiate corporation.—New York Herald.

Statistics collected by the regents at the University of New York show that in the secondary schools there are 23,846 girls of academic grade and 18,947 boys. Last year more than two-thirds of the 438 honor certificates went to girls. In the colleges there are 2,925 girls and 4,043 in the professional and technical schools. Many other young women are studying law, medicine, painting and music. The United States census of 1890 gave the number of women teachers as 338,937. In their report upon these statistics the regents remark:

"The remarkable development of woman's higher education is due to widespread recognition that a college course is needed as the best preparation for wifehood, motherhood and home life as much as for a professional life."

If Guilty, Forgiveness Is Assured.

The mortality among newspapers in the United States during the past 15 months has been something almost unprecedented. In New York state alone 773 newspapers suspended between June, 1893, and June, 1894. For the first time since 1869 the total number catalogued by the newspaper directory is less than for the preceding year. This is said to be due to hard times caused by the Democratic free trade panic, but this is one of the things for which that party will most assuredly be forgiven.

If he who makes two blades of grass to grow where there's a acre before is a benefactor of his kind, what shall be said of him who makes but one news paper to desolate the community where there were three before?—San Francisco Argonaut.

"As we were going home from myrtle, his kite," said Mr. Bonzie, "my young son says to me, 'I know how to fly a kite when there's a good breeze, don't I?' and I say, 'Surely,' but I do not say to him—why should I burden him with such things now—that anybody can fly a kite when there's a breeze—that the great problem of life is to know how to fly a kite when there isn't any breeze."

Farmers in the vicinity of Frankfort are being caught on the hillside privy legs racket. Two men paint a sign on the farmer's fence and give him a few dollars to guarantee them that no one else will be permitted to paint signs over them. The farmer is asked to sign a receipt acknowledging the payment of the money in order that they can return the same to their employer. The receipt which he signs turns out to be a promissory note for \$200 or \$500, as the case may be.—Indianapolis News.
